

Exercise 1

Store two input-output associations in the associative net. Present one of the stored input patterns and check if the correct output pattern is recalled.

Suggested associations: $\text{input}_1 = (01001001)$, $\text{output}_1 = (11000001)$;
 $\text{input}_2 = (10101000)$, $\text{output}_2 = (01011000)$. Test with input_1 .
